LOCAL REMODELING COMPANY STAFF EARNS PRESTIGIOUS CERTIFICATION

07/31/07, Fairfield, Ca. --- Tiffany De Tomasi, CKD, Senior Designer for Fisher Construction of Fairfield, Ca., has earned certification as a Certified Bathroom Designer (CBD) from the National Kitchen and Bath Association (NKBA®), while Peter Valentino, Fisher Construction owner, has earned certification from the National Association of the Remodeling Industry (NARI®) as a Certified Kitchen and Bath Remodeler (CKBR).

The process for both certifications is rigorous and thorough. The NKBA® CBD certification earned by De Tomasi requires a set number of years of experience, the completion of an intensive, comprehensive examination, adherence to a strict Code of Professional Conduct and a commitment to continuing education.

The NARI® CKBR certification earned by Valentino is valued by both professional remodelers and consumers. The NARI® CKBR program identifies professional remodelers who have undergone comprehensive review and testing in areas of business management, ethical conduct and technical skills. In addition, they must adhere to NARI's strict Standards of Practice and Code of Ethics. NARI® certification proves a remodeling contractor's superior knowledge, technical comprehension and skill in remodeling by measuring skill and expertise during a comprehensive review and examination. Attaining the certification requires the candidate to have been working full time in the remodeling field for at least five years, and passing the comprehensive assessment exam.

Homeowners who hire certified remodelers from NARI® or NKBA know that they are hiring professionals with proven skills and knowledge, along with a strong commitment to ethical conduct.
